

"Powering Progress, Igniting Innovation: Your Trusted Partner in Engineering Excellence!"

Welcome to JBMB, your trusted partner in providing comprehensive B2B solutions in Safety and Identification Products and Services covering maintenance, repair, and operations (MRO). With a steadfast commitment to safety, efficiency, and compliance, we specialize in offering top-notch products and services in key areas such as Adhesives and Sealants, Lockout/Tagout, Absorbents, and a wide range of MRO essentials.

We are proud to be associated with

Our Major Clients

Absorbents

Know What You're Absorbing

Water- or Oil-Based Fluids – Universal Absorbents

Oil-Based Fluids Outdoors – Oil only Absorbents

Hazardous Chemical Fluids – Chemical Absorbents

Identify Your Application

General Purpose Wiping, Drips & Leaks – Pads, Rolls, Socs & Pillows

Heavy Foot & Forklift Traffic- Mats & Rugs

Emergency Spill Response- Spill Kits, Pallets, Drain Plugs

Lockout Tagout

Padlocks

Mini Cable Lockout & Cable Lockout

Ball Valve Lockouts, Gate Valve Lockouts & Plug Valve Lockout

Breaker Lockouts & Fuse Lockouts

Tags, Labels & Signs

Lockout Procedure Services

Visual Lockout Procedure Writing service

Arc Flash Services

Arc Flash Risk Assessment

Arc Flash Audit

Arc Flash Safety Training

Visual Workplace Services

SIGN & LABEL PRINTER

From Hand held Thermal Label printers to Bench Top Thermal Label & Sign Printer

From 1 inch to 10inch width

300 dpi & 600 dpi

From 100 labels per day up to 10,000 labels per day

Label making Software available

Talk to us for Trials and printer demonstration.

LABELS

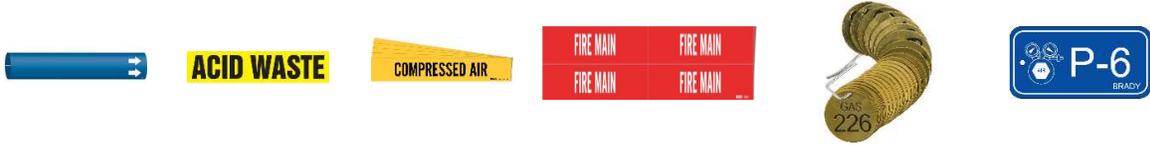

- Aggressive Adhesive Labels
- Harsh Environment Labels
- Heat Resistant Labels
- Laser Markable Labels
- Low Temperature Labels
- Magnetic Labels
- Metallic Labels
- Permanent Numbers and Letters
- Removable Labels
- Repositionable Labels
- Self Laminating Labels
- Washdown Resistant Labels

BRADY
PIPE & VALVE

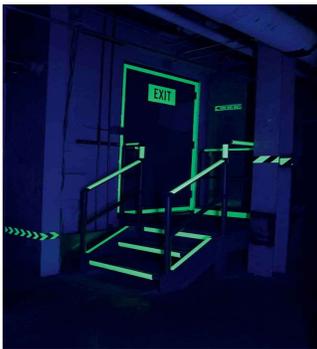

Blank Pipe Markers
Pipe Markers for Oil
Pipe Markers for fire Systems

Pipe Markers for Acids & Bases
Pipe Markers for Steam
Pipe Markers for Other liquids

BRADY
TAPE

Solid Floor Marking Tape
Ant Slip Tape
Reflective Tapes
Glow in Dark Tapes
Barricade Tape
Floor Marking die cut shapes
Caution & Warning Tape
ISO 14726 Marine Standard Pipe Marker Tape

BIRKOSIT Dichtungskitt®

PRIME SOLUTION FOR ALL
METALLIC SEALING
REQUIREMENTS.

Sealing compounds used to join metallic elements in industry are subject to extreme demands due to the high temperatures and/or high pressure.

BIRKOSIT Dichtungskitt® can be relied upon to meet the relevant requirements.

BIRKOSIT Dichtungskitt® is a single-component sealant with the consistency of paste which is reddish-brown in colour and retains permanent elasticity.

Temperature resistance: BIRKOSIT Dichtungskitt® is resistant to superheated steam, air, water, coolants, oils, lubricants and chemical gases at temperatures of up to 900 °C.

Pressure resistance: A 100% seal at pressures of up to 250 bar is guaranteed on sealing surfaces and joints. A pressure resistance of up to 450 bar is guaranteed for flanges without sealing rings and up to 550 bar for threaded connections. The pressure resistance implies process-related vibrations. Potential uses: BIRKOSIT Dichtungskitt® is primarily used in steam turbines, gas turbines, compressors, generators, expanders, pumps, valves, gear units and marine engines.

Application areas: BIRKOSIT Dichtungskitt® is suitable for use on sealing surfaces of all sizes. Any machined or prepared surfaces with damage to sealing surfaces of ≤ 0.2 mm can be treated with BIRKOSIT Dichtungskitt®.

Where products are required to fill isolated cavities of ≥ 0.2 mm to 1.0 mm we can recommend FILLINGbasic®, FILLING 1000® and FILLING 2000® for use.

ABUS products are valued for their high quality all over the world, since the company has set a high standard during the almost 100 years of company history. Due to the large product range, it does not matter if you are looking for a padlock to secure the shack in your garden or if you are on high sea. ABUS has the innovative security solution and the ABUS Product Range includes

- Premium Padlocks
- Insurance Padlocks
- Door Cylinders
- Rim Locks
- Window Locks
- Door Bar Locks

Contact us today for Securing your facility with Highest Security Standards.

Meticulously crafted through extensive years of development, this world-leading device has earned a global reputation for its unparalleled performance in CSSD and hospital settings. With SurgiScan Ultra, decoding even the most intricate codes becomes a swift and effortless task, ensuring a seamless reading experience.

Cryogenic and Deep Freezer Labels
Autoclave Labels
Heat Resistant Labels
RFID Labels and Tags

Medical Labels
Chemical Resistant Labels
General Use Labels

GA International has over 20 years of experience as a leading manufacturer of specialty labels, supplying laboratory identification solutions to biomedical research labs, hospitals, and other healthcare institutions. Since its inception, GA International has become a worldwide leader in cryogenic and chemical-resistant labels, with a strong dedication to R&D and customer service.

SIEMENS

We serve high quality brand of electric products with competitive price and availability. We can supply Siemens, C & S Switchgear and Siemens power capacitors to deliver a whole range of quality HT Switchgear Panels.

Talk to us today for the best price on Siemens range.

Schneider Electric

Schneider are global leaders in energy management products and systems consisting of low voltage and medium voltage switchgear and control gear products, motion control products and systems, energy measurement and energy quality improvement equipment.

Talk to us today for the best price on Schneider range.
